

# How to Post to the Mobile App

1. Set the **Categories** to where you wish the posted to be displayed.
  - a. **Mobile App** to load it into the RSS Feed for the Mobile App Slider
  - b. **Website Slider** for the Home Page Slider.
2. Add a **title** to the Post. This will give a text description under the flyer.
3. Set the **featured image**. This is the image that will be used for the mobile app slider. This image can be different from the main flyer image. Please note that the Mobile App uses a square ratio when displaying the image.
